

EXPERIENCE

Software Engineer II

Mastercard

Jul 2022 - Present

A fintech company where I am actively working on javascript and puppeteer library, utilising latest EcmaScript features and analytical abilities to achieve business requirements and goals.

Software Engineer

Vserv digital services

Apr 2020 - Jun 2022

An ad agency where I worked as a front end developer. Primarily worked on react.js, material-ui and redux. Major tasks focused on building and maintaining common component library based on material-ui to provide library support across projects.

Assistant System Engineer

Tata consultancy services

Nov 2018 - Apr 2020

Worked as a UI Developer. Worked on different front end technologies such as EcmaScript, HTML, CSS (Flexbox, CSS Grid). Learnt about timely deliveries.

PROJECTS

Phi - a CSS Framework

Nov 2020 - Jan 2021

Phi as the name suggests it is based on the golden number 1.618. This framework offers grid, typographical features based on the golden number. I've built this framework while keeping UI/UX concepts in my mind and applying those concepts on UI components.

CovidFYI.in

March 2020 - May 2020

This website was created to help people to get significant and verified information related to laboratories, hospitals, doctors, grocery stores, etc.
